“

“Our LFC International Academies provide young players with an opportunity to develop, learning new techniques and skills, all under the guidance of our coaching staff.

We offer something different and something unique by developing players both on and off the pitch, educating them through experiences that will shape their progression into young adults and giving them skills that can be used throughout their lives.

THE LIVERPOOL WAY

Innovative training sessions tailored to age and ability level include individual and group drills, small-sided games and skills challenges. Younger players learn the foundations of the LFC style of play in a fun footballing environment. ENGLISH TEACHING

Our English curriculum inspires students to use their English skills in the real world, helping them to understand and communicate during football training, throughout the camp and into the future. By design, our camps support English learning 24/7 through the complete English environment that every player experiences during their stay.

HOW IT WORKS

Each student is assessed on the first day and allocated a class appropriate for their age and ability level. We use the CLIL method of English learning, one of the most trusted, tested and popular English teaching methodologies in the world.

Daily classes are a structured but fun environment, using the topic of football alongside lots of energy and participation to keep students actively learning. Group project tasks offer autonomy and creativity alongside traditional teaching techniques for reading, writing and speaking in English.

At the end of each week, students receive a written report and certificate as well as individual feedback from their teacher, including advice on how to progress further at home.
