	21.45 - House Time							
	22.00 - Lights out							

The Academic Programme

English Course Options

At Headington Oxford Summer School we encourage our students to communicate freely and help them develop their language skills through an innovative syllabus. Students can choose from two English course options:

General English - Available for students of all levels of English.

Summer Study - Available at an additional cost for students of an Upper Intermediate or Advanced level of English.

Classes take place on 5 mornings each week, with a maximum class size of 15 students. All students will be asked to complete a two-part online English assessment before their arrival at the school, to assess their level of English and ensure they are placed into suitable classes.

Time to Shine: 21st Century Skills

Across our courses, our aim is to develop not only language skills, but also transferable skills that will help our students to prepare for future academic and career success in the 21st century. Each week our courses have a bespoke Time to Shine research and presentation project, that encourages students to develop the following skills:

Communication Skills: All students will develop their ability to communicate effectively with their peers, use a variety of communication forms and learn to work collaboratively as part of a team.

Expert Thinking & Innovation Skills: Through carefully selected research projects, students will develop analytical and critical thinking skills, and have the opportunity to devise and act on creative ideas to form their presentations.

Life and Career Skills: These research projects will enable students to develop their information literacy skills, by extending their own investigations and using their initiative, assuming greater control over their own learning. By working together on projects, students will also nurture their sense of social and cross-cultural awareness.
